ONE-STOP SHOP TRADE SUPPLIER

SolarFrame Trade Sales is your one-stop shop manufacturer supplying a wide range of windows, doors, conservatory roofs, roof lanterns and garden studios to the trade.

Whether you're a builder, installer, or home improvement specialist, we offer a complete range of products designed to meet the demands of today's market.

Choose from our extensive collection of UPVC and aluminium windows and doors, built to deliver exceptional performance, energy efficiency, and contemporary style. Our innovative roofing solutions include polycarbonate, glass, and solid tiled conservatory roofs, giving your customers the freedom to transform any space into a comfortable, year-round living area.

Looking for something more bespoke? Our elegant roof lanterns and stylish garden studios add the perfect finishing touch to any property, combining modern aesthetics with long-lasting durability.

All SolarFrame products are manufactured in-house to the highest standards, ensuring reliable quality, quick turnaround times, and competitive trade pricing. With expert support and a dedicated trade service team, we're here to make your job easier.

Partner with SolarFrame Trade Sales, where quality, service, and value come together. Everything you need, all under one roof.

UPVC WINDOWS

Manufactured at our dedicated facility in Goldthorpe near Rotherham, our windows are available in a wide range of traditional and contemporary styles, designed to meet the demands of modern construction while offering timeless aesthetics.

We use multi-chambered profiles to maximise thermal efficiency, advanced multi-point locking systems for enhanced security, and only high-quality, UK-sourced components. This ensures consistent, reliable performance across every product, delivered on time, every time.

As part of a wider group, we work in partnership with our sister companies, SOL Conservatory Roofs and SolarFrame Aluminium, to offer a complete glazing and roofing solution. From windows and doors to solid conservatory roofs and orangeries, we support our trade clients with a one-stop shop service, ideal for new builds, renovations, or extensions.

Designed with the fitter in mind a number of innovative features our casement windows are faster to fit meaning less time on site and less disruption for homeowners.

Installers across the UK choose us for our fast lead times, ensuring projects stay on track without compromise. Every door is crafted using state-of-the-art, precision manufacturing, delivering consistent, reliable results with every install.

Our dedicated support team is always on hand to help, from technical guidance to aftersales care. Partner with us and experience a supplier who's invested in your success. With unbeatable quality,

speed, and support, SolarFrame Trade Sales is the smart choice for professional installers.

Our doors are available in a wide range of colours and styles to suit any property, from classic finishes to bold, contemporary tones. With multiple glazing, panel, and hardware options, you can offer your customers a truly tailored solution that enhances curb appeal and adds value.

CONSERVATORY ROOFS

Whether you require glass roofs, solid tiled roofs, skypods, or roof lanterns, we have the advanced equipment and industry expertise to manufacture your products with speed and precision. Our streamlined production process ensures you can meet your customers' deadlines, we work to your schedule, not ours.

As a trusted leader in conservatory roof manufacturing, our experienced team is here to support you at every stage from initial onboarding and product setup to ongoing technical assistance. We make it easy to expand your offering with high-quality roofing solutions that are built for performance and reliability.

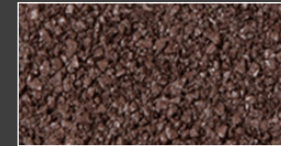

Easily retrofitted to existing conservatories or installed as part of a new build, our SOLid roof system offers a high-performance solution that delivers year-round usability for your customers.

With thermal efficiency up to 15 times greater than traditional glazed or polycarbonate roofs, our systems are fully insulated to help homeowners reduce energy costs.

Quick to install, compliant with English and Scottish building regulations, and engineered for long-term reliability.
